Growth marketer in fintech and digital assets, working across retail, wealth and institutional products in 26 markets. I form hypotheses, test them with structured experiments and customer research, and turn the results into recommendations the business acts on. I use AI to solve marketing problems, whether improving current workflows or opening new acquisition funnels.

EXPERIENCE

Graduate Growth Marketing Manager **May 2026 – Present**

Blockchain.com, London, United Kingdom | Retail, Wealth and Institutional

- Increased user retention by 12% and grew cumulative perps trading volume from $100m to $500m (5x) in two months by testing why users churned through research with 114 active, inactive and churned users, then recommending product changes that Product adopted
- Grew daily installs from 200+ to 800+ (~4x) at a flat ~$1.50 CPI by expanding Apple Search Ads from 2 to 26 markets with country-level bid and creative strategy
- Cut UK CPI by 21.5% while installs rose 30.2% by designing 128 structured experiments across 26 markets and reallocating ~$21k from 26 underperforming campaigns to 5 scalable campaign groups
- Converted 4 high net worth clients onto the loans product in Malaysia within 1 month of launch by leading the market entry on my own initiative, from regulatory research and positioning to a new compliance review process and partner channels
- Sourced 3 major high net worth clients by spotting that a major exchange was losing access to European clients under MiCA, and building an outreach list of 80 publishers with AI
- Built the company's first in-house AI UGC workflow in 2 weeks, cutting production time by 75%, lifting CTR from 0.4% to 1.15% (+188%), cutting CPI from $25 to $6 (−76%) and driving 600+ installs in the first 7 days after I recreated the creative for our rebranded yield product, then built a prompt-generation skill and handed it over to the team
- Increased email open rate by 10% by building API tools that localise Iterable (CRM) communications into 24 languages
- Generated 20+ active leads for Institutional business development by building a 100-operator prospect database with the Senior B2B Product Marketing Manager
- Cut reporting time by ~10 hours a month by building automated performance reporting with Claude Code and MCP connectors, shipped as a company-wide dashboard

Performance Marketer **Feb 2025 – Apr 2026**

Malaberg, London, United Kingdom

- Drove 120% ROAS on £50k+ monthly paid budget
- Increased daily conversions from 10 to 50+ (5x) and funnel progression by 5% by finding drop-off points through funnel analysis in Power BI, Excel and Microsoft Clarity and rebuilding the customer journey
