JESSIE CHAN

London, UK | chan.jicheng@gmail.com | +44 (0) 7751 544 790 | linkedin.com/in/ji-cheng-chan

Growth marketer in fintech and digital assets who builds, tests and deploys AI tools. I built my company's first in-house AI content workflow in 2 weeks, and deployed automated reporting with Claude Code and MCP connectors through the engineering pipeline. I design experiments and evaluate results statistically, trained in experimental design and causal inference.

EXPERIENCE

Institutional and Retail Growth Marketing Intern **May 2026 – Present**

Blockchain.com, London, United Kingdom | Retail, Wealth and Institutional

- Built the company's first in-house AI UGC workflow in 2 weeks, cutting production time by 75%, lifting CTR from 0.4% to 1.15% (+188%), cutting CPI from $25 to $6 (−76%) and driving 600+ installs in the first 7 days after I recreated the creative for our rebranded yield product, then built a prompt-generation skill and handed it over to the team
- Delivered 100+ production-ready AI video assets by comparing 6 AI model providers across avatar, voice, motion and video generation, and spending 2 weeks on prompt engineering to fix recurring output failures
- Cut reporting time by ~10 hours a month by building automated reporting with Claude Code, MCP connectors and API integrations, evaluating 4 implementation approaches and deploying it to production through the engineering pipeline with Data Engineering and Security
- Removed repeat manual work across the team by building internal bots and MCP and API integrations, deployed on fly.io
- Increased email open rate by 10% by building API tools that localise Iterable (CRM) communications into 24 languages
- Cut UK CPI by 21.5% while installs rose 30.2% by designing 128 structured experiments across 26 markets and scaling the 5 campaign groups that held up
- Increased user retention by 12% by designing research with active, inactive and churned users, finding why they dropped off our perps product, and working with Product on the fix
- Converted 4 high net worth clients onto the loans product in Malaysia within 1 month of launch by researching local digital asset regulation and setting up a new compliance review process with Legal
- Sourced 3 major high net worth clients by spotting a regulatory change under MiCA and building an outreach list of 80 publishers with AI

Performance Marketer **Feb 2025 – Apr 2026**

Malaberg, London, United Kingdom

- Cut daily report preparation from 30 min to near-instant by building a company-wide automated reporting pipeline on lead conversion
- Increased daily conversions from 10 to 50+ (5x) and funnel progression by 5% by finding drop-off points through funnel analysis in Power BI, Excel and Microsoft Clarity

EDUCATION

MRes Experimental Psychology with Data Science, University of Manchester **2023 – 2024**

First Class Honours. Experimental design, causal inference and statistical analysis in R. Research project graded 86/100, highest in the cohort.

BSc (Hons) Psychology, University of Exeter **2020 – 2023**

SKILLS

AI: Claude, Claude Code, Cursor, MCP connectors, LLM prompt engineering, Claude skills, AI model evaluation (avatar, voice, motion and video models: Runway, Gemini, Seedance, ElevenLabs)

Building & deployment: API integrations, MCP, production deployment through an engineering pipeline, fly.io, Streamlit, automated reporting

Statistics: Experimental design, causal inference, hypothesis testing, structured experiments, Python and R for statistical analysis (research), SQL

Languages: English, Mandarin, Cantonese (native), Malay (fluent)
