Product marketer in fintech and crypto, owning go-to-market launches, positioning and partner campaigns across retail, wealth and institutional products in 26 markets. I turn customer research into messaging, write the briefs and enablement material, and report on adoption with dashboards I build myself. I use AI to solve marketing problems, whether improving current workflows or opening new acquisition funnels, and bring a data-science research background.

EXPERIENCE

Institutional and Retail Growth Marketing Intern **May 2026 – Present**

Blockchain.com, London, United Kingdom | Retail, Wealth and Institutional

- Converted 4 high net worth clients onto the loans product in Malaysia within 1 month of launch by owning the go-to-market end to end, from positioning, brand and tone to KOL, affiliate and referral partner campaigns, with Legal and a new compliance review process
- Increased user retention by 12% and grew cumulative perps trading volume from $100m to $500m (5x) in two months by turning research with active, inactive and churned users into an always-on product and risk explainer and a reworked help page with Product
- Built the company's first in-house AI UGC workflow in 2 weeks, cutting production time by 75%, lifting CTR from 0.4% to 1.15% (+188%), cutting CPI from $25 to $6 (−76%) and driving 600+ installs in the first 7 days after I recreated the creative for our rebranded yield product, then built a prompt-generation skill and handed it over to the team
- Generated 20+ active leads for Institutional business development by building a 100-operator prospect database with the Senior B2B Product Marketing Manager
- Sourced 3 major high net worth clients by spotting that a major exchange was losing access to European clients under MiCAR, and building an outreach list of 80 crypto publishers with AI
- Increased email open rate by 10% by building API tools that localise Iterable (CRM) communications into 24 languages, adapting each message by market
- Cut reporting time by ~10 hours a month by building automated performance reporting with Claude Code and MCP connectors, shipped as a company-wide dashboard with Data Engineering and Security
- Cut UK CPI by 21.5% while installs rose 30.2% by running 128 structured messaging and creative tests across 26 markets and scaling 5 winning campaign groups

Performance Marketer **Feb 2025 – Apr 2026**

Malaberg, London, United Kingdom

- Increased daily conversions from 10 to 50+ (5x) and funnel progression by 5% by rewriting and rebuilding landing pages from funnel analysis in Power BI, Excel and Microsoft Clarity
- Cut daily report preparation from 30 min to near-instant by building a company-wide automated reporting pipeline on lead conversion
